## **NauticEd Releases Online Sailing Game - Cat NED**

[NauticEd Online Sailing School](#) has just released a new online sailing game. The game helps catamaran sailors gain essential skills in maneuvering a catamaran in a tight marina.

Grant Headifen, Educational Director of NauticEd and the designer of the game set the [sailing game](#) scenario up as follows: You're in the Caribbean and you've got to dock the catamaran into the customs dock, get weather information, re supply the boat and head out - all inside 5 minutes. Don't hit any docks or any other boats.

The sailing game is set up as a highly educational game. You must use the dual throttle controls on the sailing catamaran to maneuver the cat in and around a tight marina. You can challenge your friends to beat your time. To play the FREE Catamaran Maneuvering Game, you must [login to NauticEd](#). If you don't have an account, [just set one up](#) - it's easy and FREE.

Watch the Cat NED video on youtube at [http://www.youtube.com/watch?v=zlsW\\_zQYvQI](http://www.youtube.com/watch?v=zlsW_zQYvQI) then login and play the Cat NED sailing game for FREE. NauticEd says it will continue to develop experiential educational sailing games to help sailors grasp the finer points of sailing before getting out on the water for real.
